CONNECT YOUR BUILDING TO THE FUTURE

Honeywell Forge Occupant Experience with Temaline Readers

Honeywell

CONNECT PEOPLE
TO YOUR BUILDING

Connectivity has the potential to fundamentally reshape how buildings help you fulfill your goals.

Honeywell mobile apps and technologies for the Internet of Things (IoT) extend your capabilities with intelligent workspaces that give you and your occupants powerful new insights and interaction.
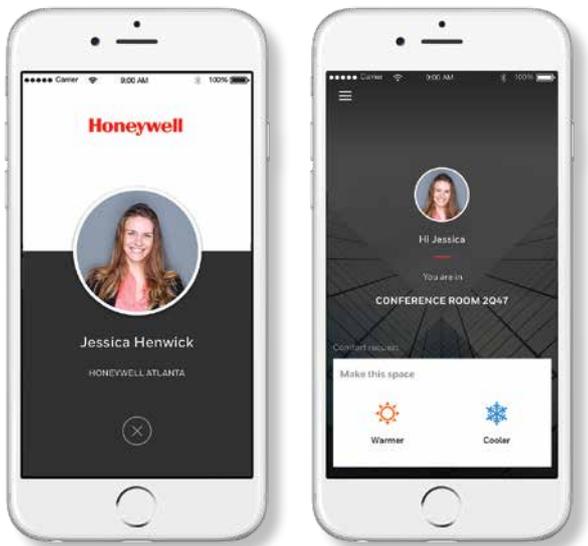

DISCOVER THE HONEYWELL FORGE OCCUPANT EXPERIENCE

Engage your building occupants and strengthen your brand with technology that links your space to their results.

Whether they're in your building every day or as a one-time visitor, the Honeywell Forge Occupant Experience gives your occupants versatile convenience and sophisticated control. Starting with the intuitive familiarity of a mobile device, you'll connect your users to the impressive potential of your building with digital ID, secure access, wayfinding, space and comfort feedback, a mobile message board, space reservation and an ever-growing range of location-aware capabilities. Moreover, the app can be customized to showcase your brand and aesthetic.

The result:
Security. Efficiency. Comfort. Savings.

You can enhance them all — along with convenience, first and foremost. It's one clever app for iOS and Android that's built to wow even the savviest of tech-savvy users.

SMART CONVENIENCE, SOPHISTICATED CONTROL

You have the option to include any or all of these features in your app, and more capabilities are always in the works.

Digital Photo Identification

Crisp, current digital photo ID on a smartphone. Save the costs of printing badges.

Secure Access Control

Get the most out of Access Control with the new, robust Temaline readers - stylishly designed to fit even the most challenging environments.

Indoor Wayfinding

Easy turn-by-turn guidance to locations and people. Save costs on physical maps and signage. Facility teams gain deeper insight into traffic flow.

Space Reservation

Find, reserve, and navigate to bookable spaces such as meeting rooms.

Reserve in a click from an interactive map, using Microsoft Office 365® cloud functionality.

Location-aware search supports preferences such as time, number of seats, specific amenities, etc.

Reservations show as upcoming events on a user's mobile device and in Microsoft Outlook®.

Mobile Message Board

Supplement or replace physical notice boards with digital pop-ups of events, safety procedures, etc.

Save costs and waste of printed notices. More efficient communication improves engagement.

Powered by a versatile "Engagement Framework" – a flexible toolkit for sending informative "cards" via the app, based on time, location, and users.

5-Star Space Rating

From a boardroom to a restroom, users can quickly score any area and add tags, photos, or comments.

Users get instant confirmation of feedback.

Avoid the costs and delays of feedback via phone, email, or paper.

Promotes maintenance accountability and faster, more efficient responses.

OneClick Comfort Feedback

Users easily flag areas that are too hot or cold. Users get instant confirmation of requests. All requests include location, helping facility managers quickly address common trouble spots.

PEACE OF MIND AND IMPROVED EFFICIENCY FOR SECURITY MANAGERS

The Honeywell Forge Occupant Experience is equally useful for security teams, whether you operate one site or many.

Secure, efficient digital IDs on user smartphones are easier and more cost-effective to issue, track, and update.

Promote overall site security with more sophisticated, secure credentials, and control proxy access.

Enhance experiences for employees and visitors with versatile convenience and smart control that stands out.

Gain deeper insights into how occupants use your site, what they prefer, and which issues need attention most.

Take action to quickly resolve issues reported by users.

Improve facility management with tools and insights that help your teams to respond more quickly and accurately.

Simplify complex buildings with easier navigation and interactive convenience.

WHITE LABELING – YOUR APP, YOUR BRAND

Showcase your brand: White labeling lets you fully customize the occupant app with your own identity and aesthetic.

From public institutions, such as airports, hospitals, and convention centers, to communities like apartments and university campuses, the Honeywell Forge Occupant Experience can be branded with the attributes you prefer, such as your name, logo, color scheme, tagline, and more.

Give your occupants and visitors the convenience of wayfinding as well as other capabilities of a smart, interactive app that reinforces the reputation you've earned and further builds your brand.

CONNECT TO BETTER EXPERIENCES

The Honeywell Forge Occupant Experience is part of the growing portfolio of Honeywell Connected Services. Benefit from a complete solution with the Temaline suite of readers - offering you a safe and secure way to manage employees' and visitors' access, anytime, anywhere.

The Temaline architecture ensures the evolution from an Access Control, that uses cards or smartcards, to mobile Access Control - without compromising on high-level functionalities.

FIND OUT HOW YOU CAN CREATE EXCEPTIONAL EXPERIENCES FOR YOUR BUILDING OCCUPANTS AND VISITORS.
